The details

This is a hospital and extras package with cover for all clinical categories in a public hospital and accidents only in a participating private hospital packaged with a basic extras cover.

An accident or injury hospital admission is defined as an injury or accident that results in the person being admitted to an inpatient bed (a ward, short-stay observation unit, emergency medical unit, intensive-care bed or coronary-care unit) and subsequently discharged on the same day or after one or more nights in hospital.

What's covered?

You are covered in a shared or private room at a participating private hospital for treatment of injuries directly relating to an accident.

You are covered for the treatment of these injuries for up to six months from the date of accident.

You are covered for treatment by your own doctor or specialist in a shared or single room at a public hospital for all 38 clinical categories as classified under legislation.

Significant out-of-pocket expenses will be incurred for any admission to a private hospital that is not a direct result of an accident.

AHSA Access Medical Gap Scheme

If your Doctor participates in Access Gap the medical costs associated with your hospital stay will be covered as either no gap or known gap. This gap is capped at \$800 for obstetric admissions or \$500 for all other hospital admissions.

What does this mean?

R = Restricted cover – minimum accommodation, no theatre fee payable

N/A – not applicable

Note:

Please read and retain for future reference. This product summary is not a complete description of your cover. Further details can be found in your Latrobe Health Services Member Guide, fund rules, Online Member Service, Latrobe app or call 1300 362 144 to check what you are covered for before receiving treatment.
